and concentrated work

Welcome to BRUMABA

Reliable quality for your health

As a family-owned company, we specialize in the development and production of ergonomic surgical tables, chairs, and stools. By providing top-quality and innovative products, we aim to improve the health and well-being of medical professionals and patients worldwide.

At BRUMABA, we value sustainability: Our products have been manufactured in our Bavarian home in Southern Germany since 1980. We use only the highest quality materials and reliable technology, ensuring our products have a long service life.

Experience our leading edge in ergonomics, comfort and efficiency for yourself.

Reliability that counts.

Stability that lasts.

BRUMABA - your partner in quality.

BALANCE ADVANCE

BRUMABA Operating Chairs and Stools:

An Investment in Your Health

For surgeons and healthcare professionals, maintaining an ergonomic sitting posture is essential not only for comfort but also for professional efficiency. Especially during long and demanding procedures, proper ergonomics promote better blood circulation, enhanced concentration, and reduced muscle tension and fatigue.

BRUMABA surgical stools and chairs are designed to adapt flexibly to individual body measurements, serving as an ideal complement to our operating tables. Their ergonomic design promotes a back-friendly posture, minimizing physical strain during surgeries and assisting roles—a sustainable investment in both your personal health and that of your team.

Your benefits:

- Optimal back support with infinitely adjustable back sections
- Precisely adjustable armrests for optimal support during surgeries and treatments
- Patented ergonomic seat surfaces for consistently secure and comfortable seating
- Individually adjustable seat tilt angle for healthy blood circulation in the legs
- Maintaining a sterile working environment with foot-adjustable seat height

Investing in BRUMABA operating chairs and stools ensures not only comfort but also supports your long-term health and professional performance.

Operating chair **BALANCE**

Achieving perfect balance: Form, function, and ergonomics

BALANCE F

Standout features

- Body-adaptive seat and backrest for ergonomic support
- High-quality cushions for comfortable and healthy sitting
